

# Invitation to the 1<sup>st</sup> OGTAC-CC community meeting (online)

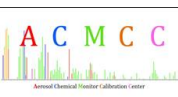

## Aims:

- Presenting the ongoing and planned activities of the calibration centre for particulate organics
- Discussion with NFs about implementing technical requirements, measurement guidelines and QA/QC procedures
- Strengthen the valuable interaction of NFs with the calibration centre and creating a lively community on particulate organic tracer measurements

**April 09,  
1-5 p.m. CEST**

**Registration via brief notice  
to [mothes@tropos.de](mailto:mothes@tropos.de)  
Agenda and online link  
coming soon...**
